RACHANA MAKWANA

has successfully completed the online, non-credit Specialization

Git and GitHub Complete Master Class

Congratulations on successfully completing the Git and GitHub Master Class! You have mastered the essential skills required to manage and track changes using Git and GitHub. Throughout the course, you have learned how to set up repositories, manage branching, resolve conflicts, and utilize advanced Git techniques such as rebasing and commit history rewriting. Additionally, you have gained hands-on experience with GitHub features like pull requests, issues, and project management tools, allowing you to collaborate effectively. With these skills, you are now equipped to contribute to open-source projects and collaborate seamlessly in professional development.
